MEMORANDUM FOR: Director of Central Intelligence

FROM : Leslie C. Dirks

Deputy Director for Science and Technology

SUBJECT : NSA/CIA Consolidation Plan

- 1. Attached for your signature are three letters to Congress conveying the detailed implementation documentation of the NSA/CIA consolidation. The Mahon letter is different from the Inouye and McClellan letters as only Mahon received the January 18 bilateral policy agreement sent to the DCI jointly by the Director, NSA and Deputy Director, CIA. Except for a different first paragraph, the two letters going to the Senate committees are identical to the Mahon letter. The FY-78 Conference report notes that Congress is expecting to hear from you on this issue no later than September.
- As you will note, the letter's for your signature use some direct and forceful language. This language reflects my view, which I hope you share, that it is appropriate for Congress to be informed on Intelligence Community organizational issues, but the prerogatives on program implementation and therefore the organizational arrangements for program execution are yours as the responsible senior executive branch official. At one time Mahon's committee or at least some of the committee staff was looking at moving all of the CIA SIGINT Program to NSA in a direct and literal sense. "I personally do not believe that view was ever broadly shared in Congress. The more recent appropriations bill language as we discussed last week, is far softer and in my view more appropriate than some of the earlier I am convinced that the activities of the past year and the resulting actions flowing out of these joint NSA/CIA studies and deliberations fully meet the intent of Congress. This intent as I have understood it, is to move toward a better integrated and more cost effective SIGINT operation. I think you can fully support measurable progress in both those areas.
